

PRIMASTONE

BY PRAGATI GRANITES

HIGH
PERFORMANCE
QUARTZ
SURFACES

Quartz slabs are manmade engineered stone surfaces formed by combining 95% ground quartz with resins, polymers, and pigments. This results in a super hard, low maintenance, natural stone look surface available in a dazzling array of colours.

WHY WE LOVE PRIMASTONE

APPEARANCE

Rich, plentiful colour options in symmetric, consistent textures and patterns.

COST

Cheaper than most exotic and imported granites and marbles.

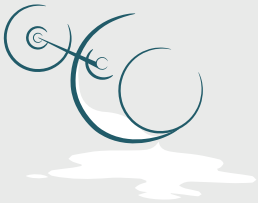

SAY NO TO SCRATCHES

SCRATCH RESISTANT

Abrasion-resistant surface resistant to most scratches.

EASY CLEANING

No need to use expensive cleaning agents or stain removers, just use plain water, everything washes right off.

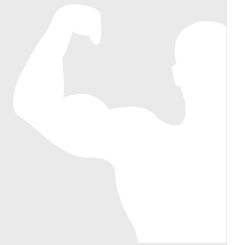

STAIN FREE

Completely non porous, so you never have to seal, polish, or recondition.

STRONG

Takes a beating without chipping or cracking. It is harder than granite or marble.

HYGENIC

Certified for food preparation. Primastone is mould, mildew, and bacteria resistant.

SIMPLE APPLICATION

Shaped, cut and finished using the same equipment as granite or marble. The slab is even the same thickness.

WHERE TO USE

KITCHEN COUNTERTOPS

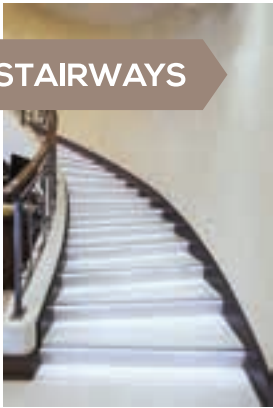

BATHROOM

FLOORING

STAIRWAYS

BAR COUNTERS

MATERIAL PROPERTIES FOR PRIMASTONE

Property	Test	Granite	Marble	Prima Stone	Wood	Corian	® Note
Bending Strength	Flexural strength	16	8	27	11	68	Higher is better
Loading Ability	Compressive Strength	190	60	234	42	160	Higher is better
Stain Vulnerability	Water Absorption	0.3	0.2	0.02	9	0.1	Lower is better
Scratch Resistance	Surface Hardness	5-6	2.5-5	6-7	2-3	2-3	Higher is better

Properties for natural rocks like Granite and Marble vary with location of sample and colour of material (caused by chemical composition), We have done our best to provide you with a representative average for comparative purposes.
